

ALL ARE WELCOME HERE

We strive to make Health Care for the Homeless a warm, welcoming and LGBTQ-friendly space.

We offer whole-person, trauma-informed health care like:

Hormone therapy

HIV/Hep C testing and counseling

Queer and LGBTQ+ affirming therapy

As well as medical, dental, psychiatric care and a harm-reduction based substance use program.

We know that health requires more than health care. That's why we offer supportive services like:

Support with name changes

Letters for gender affirming surgeries

We can also help with getting ID, benefits and income assistance, a variety of support groups, securing housing and more.
